

Escape of Water: What should you do?

Escape of water is when water that enters your property by the mains water supply and has at some point on its journey within your house, escaped from the pipe or tank that it was in and caused damage to your property.

Whatever the time of year, you could be at risk of escape of water. This can be caused by, blockages and overflows, faulty heating, burst pipes or even a fault washing machine.

If you have a leak, what should you do?

If you suspect escape of water and it is safe to do so, you should:

- ✓ Turn off the main water supply for your home to prevent further damage.
- ✓ Turn off the power and avoid electrical appliances. Get in touch with an electrician first if you have to stand in water to turn off the mains electricity.
- ✓ Contact your landlord as soon as possible.
- ✓ You should also move any furniture or personal items away from the water to prevent further damage being done.
- ✓ Take some photos of the damage.

The My Home Contents Insurance Scheme, offers cover for damage to your home contents and belongings, caused by escape of water. Such as drenched carpets, or water from a pipe in the ceiling has come through onto your TV.
